AD100213

NOTE: Cylinders sold separately

**Hook Bolt Mortise Lockset
1-1/8" Duro LH**

AD100215

NOTE: Cylinders sold separately

Standard Features

- **Case:** 1" x 6" steel case and mechanism (case depth varies with "Backset". All parts are zinc plated, for protection against corrosion).
- **Security:** Huge five ply laminated steel bolt with concealed hardened steel pin provides maximum security for any single leaf door, or a typical installation where gap between door and jamb is greater than it should be.
- **Backsets:** 1-1/8" backset and 31/32" backset available
- **Key:** 360° turn of key (or thumbturn) actuates the simple pivoting mechanism, which in turn throws or retracts the counter-balanced steel bolt. Key can be removed only when bolt is in a positively locked or unlocked position.
- **Face Plates:** 1" X 6-7/8" aluminum or duronodic beveled
- **Cylinders:** Both mortise locks accept any standard 1-5/32" mortise cylinder or thumbturn, with proper cylinder cam, from either/or both sides.
- **Finishes:** AL / Aluminum, Duro / Duronodic

*NOTES: AL = Aluminum, Duro = Duronodic, LH = Left Hand, RH = Right Hand
