Utility Rooms

FEATURES

- Robust metallic design for enhanced durability
- BHMA commercial grade 2 certified
- Property managers can disable the Passage Mode so that it auto-locks every time and a key or code is always required for entry. This is ideal for restrooms in restaurants and gas stations.
- Up to 50 unique user access codes
- One-time user codes available for emergencies
- For added convenience, property managers can program the lock from the outside with a programming code.
