

ECTRONIC KEYPAD LOCK

featuring

SC1 KEYWAY

INNOVATIVE **SECURITY**

Tell's KE2000 is a simple and secure electronic lock for a variety of commercial applications. This Grade 2 knob is ideal for offices, retail spaces, modular buildings, temporary construction access, public restrooms, storage closets and more.

The SmartKey Security™ features an SC1-keyway cylinder. You can rekey your masterkey right on the spot. One less key!

EASY INSTALLATION.

- Replaces existing door hardware with just a screwdriver
- No hard wiring needed
- Operates on a single 9V battery
- BHMA Certified Grade 2 in security, durability and finish
- Tested to 500,000 cycles

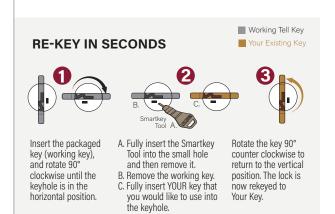

SmartKey Security[™] Makes it Easy to Re-key to Existing SC1 Keys!

- Allows up to 100,000 key combinations
- Optional one-key convenience for ALL locks with the SC1 keyway

You must have the working key to rekey the lock.

Labs/Restricted Areas

FEATURES

- Robust metallic design for enhanced durability
- BHMA commercial grade 2 certified
- Up to 3 year battery life
- Property managers can disable the Passage Mode so that it auto-locks every time and a key or code is always required for entry. This is ideal for restrooms in restaurants and gas stations.
- Up to 30 unique user access codes
- One-time user codes available for emergencies
- For added convenience, property managers can program the lock from the outside with a programming code.
